

Reception - June - July 2026

Around the World!

Our theme for our final half term is all about different countries. First, we will learn all about England and where we live. We will explore local geography and history - learning all about the royal family. Look out for an invitation to a royal afternoon tea.

We will then move on to learn about a selection of countries from across a range of continents including: Asia, Africa, America, Antarctica and Australasia.

We will be exploring different methods of transport and setting up a role play airport. We can't wait to see where our adventures will lead!

During this half term, our literacy focus will continue to be on reading and writing words and simple sentences. We will also continue to improve our handwriting, focusing on our letter formation. Many of us are finding the curly letters such as a, b, d, g and p tricky. Please help your child to practise these at home.

We will be doing lots of art and creative activities as part of our theme. These will include making flags and bunting.

There will be many events to look forward to, this half term:

- A royal picnic
- A pirate day
- A water fun day
- Sports Day.

Look out for further information in due course.

All children will continue to bring reading books home each week. Please remember to send your child to school with their bookbag every day.

Feedback.

We always value your feedback. To provide feedback about this theme letter, please scan the QR code.

Playing and learning in warmer weather can make children extra tired, so please get them to bed early so they get a good night's sleep.

Finally - please send children to school with a named water bottle and a named sun hat or cap on sunny days.
