Dear Parents/Carers

Our next theme is 'Africa'. This theme focuses on geography, Design Technology, art and music.

In geography, we will use maps, atlases and globes to locate The Gambia and consolidate our learning of the continents and oceans of the world. We will use photographs, fieldwork and observational skills to compare the key human and physical features of Frizinghall with The Gambia.

In art, we will use African art as inspiration to further develop a wide range of techniques involving colour and pattern.

In Design Technology, we will study a variety of foods and which parts of the world they come from. We will then bake corn bread.

In RE, we will focus on the question, "What did Jesus teach and how did he live."

In PHSE, we will be thinking about relationships with and discussing our feelings and emotions.

In PE, we will be starting our athletics unit and learning running, jumping and throwing skills.

In computing, we will be learning to present our ideas in a variety of ways.

Helping at home:

- Access TTRockstars
- Access Purple Mash online.
- Log on to Purple Mash - Complete the My African patterns activity and take the World continents quiz.
- Go for a walk around Frizinghall and talk about the different human and physical geographical features that you see.

Thank you for your continued support.

Ms Darr and Mrs Ritz
